D) Reading Comprehension:

۹ – متن زیر را بخوانید و به سوالات آن پاسخ بدهید.

The world around us is full of amazing things. Knowing this beautiful world is very interesting for humans. One group of people who study the world are scientists. A scientist studies nature, animals, or people. Scientists work hard and do research to solve problems, find facts or invent new things. Scientists learn about the world by observing and experimenting.

There are different types of scientists. Some of **them** study plants, earth, seas, or animals. Others study people and how they behave and learn. Some scientists like to study history or languages. Others are interested in making new things. They want to make people's lives easier.

Some scientists become very rich and famous. Many people around the world may remember their names and faces. But this is not what they call 'success'. They feel successful when they solve problems and find answers to their questions.

۴

27. Only scientists like to study the world. **a. True** **b. False**
28. There are different types of scientists. **a. True** **b. False**
